# Guidelines on “Application for Child Benefit” and “Appendix: Child”

Please fill out the application form and “Appendix: Child” form carefully and in a legible manner. Please mark relevant sections with a X. Do not forget your signature! If you are under-age, your legal representative must sign for you on your behalf.

The application must also be signed by your spouse or civil partner living together with you/the other parent if he/she has agreed that you receive Child Benefit. If no agreement has been reached, please inform the Family Benefits Office accordingly. If the person entitled to payment has been determined by a court of law, please enclose the decision of the court.

Please note that your application can only be processed when it has been fully completed. Insofar as proof must be submitted for the determination of the child support benefit claim, information that is not required (e.g. school grades on a transcript) may be made illegible.

Since 1 January 2016 the requirement for an entitlement to Child Benefit is that the person entitled to the benefit and the child be identified by means of the tax identification number allocated to them (Section 139b of the German Fiscal Code). Since 2008 every person whose main place of residence or sole place of residence is recorded in a register of residents in Germany is allocated a tax identification number. Persons who are not required to register but who are liable for tax in Germany also receive a tax identification number.

Your tax identification number and that of your child can be found in the relevant notification from the Federal Central Tax Office (*Bundeszentralamt für Steuern*). Your number is also located on your electronic wage and tax statement (*Lohnsteuerbescheinigung*) from your employer or in your income tax assessment (*Einkommensteuerbescheid*). If you cannot find your tax identification number in these documents, you can ask for it to be sent again by using the online entry form on the Federal Central Tax Office's website at [www.bzst.de](http://www.bzst.de). The tax identification number will be notified to you in writing by the Federal Central Tax Office. For data protection reasons it cannot be provided over the telephone or by email.

If you have moved to Germany from abroad, you will automatically receive your tax identification number in the post from the Federal Central Tax Office when you have registered with the residents' registration office (*Einwohnermeldeamt*). Your child's tax identification number will be sent immediately after his/her birth to the registered address. For children who in the meantime have lived abroad but have already received a tax identification number in Germany, please give the tax identification number received in Germany. If a tax identification number in Germany does not exist for the child because e.g. he/she lives abroad (EU), then the child must be identified by other appropriate means such as standard personal identification processes and documents used in the respective countries. Your Family Benefits Office will advise you about which specific documents are required.

Answers to more questions on the tax identification number as a requirement for entitlements can be found online at [www.bzst.de](http://www.bzst.de)

## Payout restriction

Fixed child benefits are paid retroactively only for the last six months before the beginning of the month in which the application for child benefits is received by the Family Benefits Office (*Familienkasse*) (§ 70 (1) sentences 2 and 3 EStG).

## Application for Child Benefit

### **1 and 2: Information on the applicant and spouse or registered civil partner or the other biological or step-parent in the common household**

If both parents of a child fulfil the requirements for the receipt of child benefits, the person making the application should be the parent who with the agreement of both parents is to receive the child benefits. The family status “permanently separated” is only to be chosen if in the case of married couples one spouse has the intention of permanently maintaining the separation (this also applies to registered civil partnerships).

Please provide information on the other parent in the “Anlage Kind” [Child Annex] if the other parent does not live in the same household as the applicant.

### **Nationality of the applicant:**

1. If you are a **German** citizen or a citizen of an **EU/EEA state or Switzerland** and if, for example, at least one parent or child lives or works abroad or receives foreign benefits or if one parent is a member of the NATO armed forces stationed in Germany, please complete the “Anlage Ausland” [Foreign Countries Annex] form.
2. If you are **not a German citizen, but** a citizen of an **EU/EEA state**, please complete the “Anlage EU” [EU Annex] form and submit it together with your application; unless “Anlage Ausland” [Foreign Countries Annex] form is attached due to the applicability of point 1 above
3. If you are a citizen of a country **other** than Germany, an EU/EEA state or Switzerland, please include residence permit

### **4: Notification should not be sent to me but to the following person**

Here, you can specify a receiving agent (e.g. tax advisor, income tax assistance association, etc.) who is to receive the ruling on child benefits.

### **6: Following reckonable children to be taken into consideration**

Children in respect of whom Child Benefit is received by another person can be included as part of your application for the purpose of increasing the Child Benefit (‘reckonable children’). If you wish for reckonable children to be included as part of this consideration, in the case of each child please provide details of the person in receipt of Child Benefit for the reckonable child and which Family Benefits Office pays the Child Benefit.

## “Appendix: Child”

### General

Please fully complete the “Appendix: Child” form. In the case of an application based on the birth of a child born in Germany, the birth certificate for child support benefit, or the birth certificate should only be submitted to the family insurance upon request. In the case of a foreign-born child, official documents (e.g. a foreign birth certificate) must be used to prove the relationship to the child.

For children over the age of 18 the appendix is only to be completed if they meet the particular requirements as set out in the leaflet on Child Benefit. Appropriate proof (e.g. relating to schooling or vocational training) must be enclosed. In the case of adopted children please enclose the adoption order from the Family Court.

“Other persons” who form part of a child/parent relationship are parents, step-parents, adoptive parents, foster parents, grandparents.

#### **1: Details of child**

If the children are not living in your household, state the reason for this (e.g. living with grandparents, living in a foster home or other home, for schooling or vocational training, further residence at home or abroad).

#### **2: Parental relationship with the applicant, spouse, registered civil partner and other persons**

Entering the information requested here is required **in every case**. If the other parent or parents of the child are deceased, then this is to be specified with the insertion of the word “deceased”. If the paternity of the child has not been legally determined, then “unknown” or “paternity not determined” is to be entered.

#### **3: Details of child of full age**

##### **Particular requirements for entitlement to benefit**

According to § 32 para. 4 sentence 1 EStG, the consideration of an adult child is possible, if he/she

1. has not yet reached his/her 21st birthday, is not in employment and is registered as a job-seeker with an Employment Agency in Germany, or
2. has not yet reached his/her 25th birthday and
  - a) is being trained in an occupation or
  - b) is in a transitional period of a maximum of 4 months or
  - c) cannot begin or continue vocational training due to a shortage of vocational training places or
  - d) is participating in a regulated volunteer service or
3. because of physical disability, mental disability or psychological impairment is not in a position to support himself or herself provided that the disability occurred before the age of 25 (no age limit).

#### **5: Public service activity**

“Employed in the public service” refers to employment as a civil servant/a person retired from the public service and in receipt of retirement benefits/an employee of the Federal Government, a German state (*Land*) government, a local authority, a local authority association or other public body, institute or foundation or a judge, professional soldier or soldier serving for a limited period.

For this purpose, this also includes activity carried out for an employer in the private sector if a member of the public service has been granted a leave of absence to do so. The definition of “public service” does not include religious denominations established by law (churches including religious orders, church-run hospitals, schools or nursery schools, amongst others) as well as head or member associations involved in voluntary welfare work and organisations or facilities associated with them.

#### **6: Entitlement to cash benefit from an agency outside Germany or from an inter-country or supranational agency**

For example, entitlements to child-related family benefits that are paid from another country or entitlements to child-related benefits from an employment authority (e.g. the European Union) should be entered here.

#### **7: In the last five years prior to the making of the application, are or were you or another person who forms part of a child/parent relationship with the child: (...)**

Questions 7a and 7b are still to be answered with “yes” if you, your spouse or registered civil partner or another person who is in a parental relationship with the child have been employed in the diplomatic or consular service.
